GRAYLING, MICHIGAN, THURSDAY, APRIL 4, 1940

O. P. Schumann, Editor and Proprietor.

Supreme Court **Renders Decision** In Grayling Case

The case of Alex Atkinson vs. Alfred Hanson and State Accident Fund has just been decided by the Supreme Court of Michigan, in which the plaintiff was given a judgment. Attorney

Atkinson, an auto salesman for Alfred Hanson, says he was trying to sell a car to Anton Kangas, and was giving a demonstration. The group decided to drive to Gaylord, about 28 miles distant. Peterson did the driving. They reached Gaylord at about 8:00 a.m., remaining about an hour and a half.

decision of the Department of Labor and Industry.

Justice Sharpe wrote the majority decision which was concurred in by Justices Potter, North, and McAllister, and was affirmed in by Justice Bushnell. Judges Chandler and Weist dissented.

Much credit is due Attorney

Much credit is due Attorney Chas. Moore in his handling of the case.

manner of our forefathers. Weak-ness alone, does not motivate the predatory acts of power politics. The sole crime of the peoples caught in the maw of aggression has been that they possessed rich lands which they were unable to

needed by predatory powers.
But, we have the means to protect our land and the ways that tect our land and the ways that are ours. Naval expansion is relatively cheap, when considered in the light of peace insurance. Manned by the finest type of young Americans, our Navy is our surest guarantee of peace.

Europe's tragedy is America's lesson. We are determined to have peace, and will take steps to protect that peace.

to protect that peace.

Extremes of altitude in Michigan range from the Lake Erie shore, only 572 feet above sea level, to a peak in the Porcupine mountains in the west end of the upper peninsula which is 2,023 feet above sea level.

CCC Camp News

CAMP HARTWICK PINES SP-8 Mich. V-2690th Co. (Too late for last week) Good Friday and Easter Observ

Good Friday and Easter observances were excellent among the Veterans of Camp Hartwick Pines. Chaplain John Samuel conducted a general service on gan, in which the plaintiff was given a judgment. Attorney Charles E. Moore was the attorney for the plaintiff.

This case came out of an accident that occurred March 10th, 1938 at which time the car, driven by Russell Peterson, sideswiped a truck while returning from Gaylord, demolishing one side of the auto and Atkinson suffered a badly crushed arm and other injuries.

In the car with Atkinson and Peterson were Anton Kangas, Kenneth Clise and George Collen. Atkinson, an auto salesman for Alfred Hanson, says he was trying to sell a car to Anton Kangas, Camp Improvements Good Friday for the men who re-

Atkinson, an auto salesman for Alfred Hanson, says he was trying to sell a car to Anton Kangas, and was giving a demonstration. The group decided to drive to Gaylord, about 28 miles distant. Peterson did the driving. They reached Gaylord at about 8:00 a.m., remaining about an hour and a half.

It was on this return trip that the accident occurred. Atkinson was in Mercy hospital several weeks and at one time it was believed he could not live. He however, recovered and is able to resume his duties at the Hanson Garage.

Claim for personal injuries was filed with the State Accident Fund. Attorney Charles E. Moore of this city represented the plaintiff and won a judgment in a hearing before the Department of Labor and Industry. The defendants appealed the case to the state supreme court and on April 1st that body sustained the decision of the Department of Labor and Industry.

Justice Sharpe wrote the majority decision which was concurred in by Justices Potter, North, and McAllister, and was affirmed in by Justices Bushnell. Judges Chandler and Weist dissented.

Much credit is due Attorney Plans for a National Employ-

Job Placement Program
Plans for a National Employment Week, to be held from May
1 to 8, has been announced by
Paul H. Griffith, national direc-

to report for registration immediately to the local Employment Service office. Cards for these men will be forwarded to the employment office nearest their home. A list of all State Employment Service offices is available to the men in the camp library and every facility and assistance is given them to complete an active.

Service facilities were also given careful consideration in the comprehensive plan. Detail Grayling Chamber of Commerce water, power, light, telephone, loud speaker, and sanitary facilities are now being planned. Walks and roads as planned will be adequate for the movement of several hundred cars and thousands of people at the same library and every facility and assistance is given them to complete an active. America is the richest nation in the modern world. We have an abundance of almost everything plete an active registration. Twenty-four hour service to emplete an active registration. ployers wanting men from this company is promised. Ask for them today and they will be on the job tomorrow. Two men who received notification of job possibilities this month, were whisked to the train before they could ed to the train before they could

Palanga, a Lithuanian coast resort 700 years old which has a tourist population twice the number of its own inhabitants, has one of the safest sandy beaches of the Baltic. You can wade out 90 feet on the sandy ocean floor before the sea reaches the knees. It is a paradise for children's play.

Tax Payers Theme Song

(To be sung to the tune of "The Battle Hymn of the Republic")

On your bread and meat and tea; They've put a tax on Baby's milk, And Sister's lingerie. They've taxed your beer and cigarettes; We're suckers—you and me; Let's trim the spenders down. (slow and long drawn)

Glory, glory Hallelujah— Glory, glory Hallelujah-Glory, glory Hallelujah Let's trim the spenders down.

There's a tax upon your sugar,

The Job Of Building Winter Sports Park

(Presented before the Michigan Academy of Science, Landscape Section on March 15, 1940, at Ann Arbor, Michigan by J. Bernard Schwerdt).

I am greatly pleased at this opportunity for presenting a paper on winter sports park development. Since my experience on this subject has been almost entirely confined to the project now under development at Grayling Michigan; this naper must ling, Michigan; this paper must necessarily be based largely on the problems encountered in its particular design and construc-tion. Most of these problems would, however, be applicable to

tion. Most of these problems would, however, be applicable to any other comprehensive winter sports area, and in general, the fundamental principles of good design and good common sense are true in winter sports development as in any other form of land use or planning.

The Grayling Winter Sports Park came into being as a result of increasing public demand for such an area, through the efforts of the Michigan Department of State Parks, with the United States Department of the Interior, National Park Service as the cooperating Federal Agency and the Civilian Conservation Corps as the work unit. The city of Grayling had conducted a winter sports program for a number of years, on the site of the present park which is located on the Hanson State Military Reservation. The selection of Grayling as the ideal location for this new State Park development was based on the following considerations:

1. Accessibility by roads and trains from large population centers.

2. As far south as dependable snow conditions permitted.

3. Suitable topography for all

 2. As far south as dependable snow conditions permitted.
 3. Suitable topography for all desired forms of activities.
 4. Sufficient State and Federally owned lands available for use.
 A survey of conditions at the old Grayling Winter Sports showed that the local facilities were of a too temporary construction to use and were also inadequate for the increased public attendence anticipated. This meant the removal of all such construction and the starting again from the beginning. The master plan for the park provides for all desirthe park provides for all desirable forms of winter sports activities, i. e. tobogganing, skating, bob-sledding, ski-jumping, ski-running, and hill and trail ski-running. Such minor activities as saddle-skiing, pan-skling, snowshoeing, and coasting were also included as well as ample ploughed walks and observations rounts and bleachers for spectapoints and bleachers for specta-tors. Our goal was to create a winter park where all could enwinter park where all could enjoy and participate in some type of recreation; where the beginner as well as the expert could be interested, where young and old alike could find enjoyment, and where competitive skating, skijumping, cross-country and slalam skiing events could be held according to the standards set by the various amateur associations for those sports. With respect to competitive sports or exhibitions the consideration of spectators is of primary importance. Good competitions popularize and addistinction to an area but are in themselves costly to promote and must be well supported by a sat-

Walks and roads as planned will be adequate for the movement of several hundred cars and thousands of people at the same time. The peak Sunday of this past winter totalled over 1100 cars and 8300 people, all arriving within a few hours and the majority leaving within a space of one or two hours. Mass moveof one or two hours. Mass movement of even larger crowds will occur in the future when com-petitions are held and must be provided for in the road and walk

In approaching the problem of design we were greatly surprised to find that little information on to find that little information of winter sports planning or de-velopment was available for ref-erence. Lake Placid has a won-derful bob-sled run for expert drivers, there are numerous skiderful bob-sled run for expert drivers, there are numerous ski-jumping centers, and various other places noted for skiing or skating. No place could we find a complete winter sports development such as we had in mind for construction in Michigan, so it was necessary to proceed almost entirely appear of the process. it was necessary to proceed al-most entirely on our own judg-ment and initiative. Sufficient (Continued on page two)

"BEARS" LOSE TO MACKINAW CITY

The Grayling "Bears" lost a close game to the Mackinaw City Independents 24-21, last Wednesday, March 27th in Pellston's Gold Medal basketball tourna-

ment. The Bears won a game from Charlevoix by a forfeit.

Lewis Smith captured scoring honors with eight, points and was followed by Dewey Coutts with 7, Paul Lovely with 4 and Bud Wissens with 9.

7. Paul Lovely with 4 and Bud Wiseman with 2. The Bears led at the half 13-9 but lost the lead in the third quarter when Mackinaw City put on a nine-point rally.

THE TYRANT'S HEEL

Grayling Railroad

Michigan.

According to the poster there are 22 miles of railroad in this county, with 33 persons in local rail service earning an average of \$41,372.52 a year. The county in 1939 also collected \$4,497.37 of the taxes the railroads pay into the state treasury, the money coming into the county through the primary school fund.

The railroad league is issuing

tend.

Also Harry Carter, field manager of the Michigan Expenditures Survey will have a message to present to the Grayling people. Dr. C. R. Keyport and Spike MacNeven, who attended the meeting of the Taft Highway association in Lakeland, Florida, will make reports of the meeting.

This is a very important meeting.

This is a very important meet-ing and deeply concerns the cit-izens of Grayling and every pub-lic spirited citizen should attend. Mark the date on your calendar—Tomorrow night, Friday,
April 5th, at 7:30 o'clock at the

by a margin of 1 vote.

It will be of interest to mention that in the Village of Roscommon, Henry DeWaele, who has been supervisor for many years, was defeated for election by Darrell Matheson, who was a slip candidate. It is generally believed that Mr. DeWaele's defeat was not because of any lack in was not because of any lack in efficiency and service, but rather because of his long tenure of office and a change was favored.

Pink Bollworm The pink bollworm, described by

U. S. cotton men as a worse pest than the boll weevil, is believed to have come originally from India, where it was recognized as a cotton enemy nearly 100 years ago. Experts think it was carried to Egypt from India in seed-cotton shipments and that it spread from

Woodruff Writes On Circuit Court To Census Questionnaire | Convene Tuesday

proposed to be included in the census questionaire by the Bureau of Census, under the instruction of the Secretary of Commerce, Harry L. Hopkins.

Not only are several of the questions beyond the intent and purview of the Congress, in the purview of the Congress, in the opinion of men in both Houses of the National Legislature who have studied the census questions very carefully, but there are some clear indications that this is a long step down the road toward political autocracy and tyranny if it is not challenged.

The questions included in the signment cases for the some time.

tyranny if it is not challenged.

The questions included in the census questionnaire pertaining to income, the number of persons using each bathtub, the number of times a woman has been married, her age at first marriage, the number of children ever born, and similar questions which may cause far more damage than is at the moment forseen, are far afield. But the startling thing about this whole controversy is that the Department of Commerce contends that under the 1929 Census Act it has the power to make "any inquiry as to the personal status of the inhabitant."

We begin to get some light as to just how far this bureaucratic A. Hendrickson, Beulah Douglas Henry and the canes of Marius Hanson and that of Schweitzer & Co., Incorporated, continues on the calendar.

The matter of the petition of Vernon J. Brown, Auditor General of the State of Michigan, for the sale of certain lands assessed the reson for the years 1937 and prior years, will be presented.

The following divorce cases are listed: Dick D. Lewis vs. Mable Lewis, Wylo Kirkby vs. Vira power to make "any inquiry as to the personal status of the inhabitant."

The economic value of Michigan's railroads to Crawford county is graphically pictured in posters now being installed in all railroad stations in the county.

The posters were prepared to the first of the wholesale graduation of the county to the posters were prepared to the county.

Beer Seven Years Old —And Big Tax-Payer

Legal beer is seven years old this month.

Brought back by Congress, on April 7, 1933, "to provide . . . a proper and much needed revenne for the Government," it has become one of the nation's halfdozen higgest tax-payers.

The United Brewers Industrial Foundation reports that the brewing industry in seven years since re-legalization has:

Provided steady employment for a million people in brewing and allied industries;

Bought \$600,000,000 worth of farm products:

Contributed two and a quarter billion dollars in taxes:

Created legitimate business benefits of eleven billion dollars: worth of machinery and equip-

ment; Spent \$400,000,000 for power and transportation; Established an expanding in

dustry program to protect the public against abuses in the retail sale of beer.

THE JOB OF BUILDING WINTER SPORTS PARK

information can be obtained on ski-jump construction, on laying out regulation ice and hockey rinks, and the Conservation Department of New York State has partment of New York State has available some excellent pamph-lets on ski-trail design. Nothing worthwhile was obtainable on toboggan slides, take-off build-ings, middlewest skiing—where we have short hills rather than mountain sides, or simple bob-sled runs suitable for an amateur to qualify on with a minimum of instruction without risking life and limb. We found nothing to guide us in figuring a water sys-tem for icing purposes where one fog nozzle alone requires thirty gallons of water a minute under high pressure and where under certain circumstances the opera-tion of twelve to fifteen of such tion of twelve to fifteen of such nozzles at once would not be unusual. We had no information on toboggan speeds on ice and are even now attempting to figure a bob-sled run involving gravity, friction, momentum and centrifugal force, that will meet the requirements we have established. We discovered in time that our toboggan take-off had insufficient grade at the start but were able fortunately to raise the foundations of this structure an foundations of this structure an additional five feet. We hope we will not be too far wrong on our

bob-sled computations.

We are now revising the park master plan to adjust it to a re-location of the state highway which was recently re-routed to which was recently re-routed to allow additional space for parking area and the toboggan outrun. This revision offers us an opportunity to widen and improve our entrance road and parking situation in the light of the past winter's experience in traffic peaks. We can also better provide for entrance checking and faster ticket selling.

Except for the preceeding we

Except for the preceeding we have found no reason for making any other fundamental changes in the master plan originally conany other fundamental changes in the master plan originally con-ceived. This plan provides for a capacity attendance of approxi-mately twenty thousand people. A glance at the master plan will show that the entrance road and parking facilities will permit free and convenient circulation of cars, that the main administraion building is centrally located with the entrance road on one side and activities circling the other three sides, and that building looks out towards this hills where the most activities hills where the most activities center. Ample circulation space is provided between activities and the feeling of expanse and the out-of-doors has been striven for. The service area is well concealed beyond the skating lagoon but conveniently tied in with roads to the rest of the plan for all practical purposes.

for all practical purposes.

All of the foregoing has pictured our problems and plans in a more or less general aspect. The following is intended to give a more detailed description of our major activities and the particular major activities and the particular requirements and problems we have encountered in their planning and construction.

Toboggan Slides

These slides are composed of 12 gauge copper bearing sheet 12 gauge copper bearing sheet steel side rails laid on creosoted cross-ties, the toboggans sliding down between the rails and guiddown between the rails and guided by them. Six slides or three
pair of slides in all are planned
for the Grayling project, each
pair of slides is irregularily terraced above the other to give
variation in sliding as well as to
present a more interesting view
to spectators. These steel side
rails were especially developed
for this project and are a new
departure in boboggan slide
design. They offer the advantages of being safe, low in operating cost, and quickly reconditioned for use after a thaw. The
bottoms of the slides or shutes
are covered with one half to one
inch of solid ice over the ties.
Both surface and underground Both surface and underground drainage is provided beneath the entire course with drain inlets in the bottoms of the slides which can be opened up during thaws to take off surface water and prevent excess washing of the ice

Figuring on the basis of six slides the total cost of materials for the slides together with water and drainage materials amounts to \$0.89 per foot of slide. The steel side rails can be given a maximum vertical bend of 7%. The average grade of the take-off is 16%, the grade of the greatest slope is 36% and the length of slope is 400 feet. Toboggans on hard ice attain a speed of sixty to seventy miles per hour at the base of the hill and are still traveling at thirty to thirty. to \$0.89 per foot of slide. still traveling at thirty to thirty-five miles an hour when they leave the steel_shute 1520 feet leave the steel snute 1520 feet from the take-off and plunge onto the out-run. This out-run area is a flat graded section 280 feet wide fanning out to banked sides. The total length of the slides from take-off to out-run is 2410 feet Curbing tablegging eleven from take-off to out-run is 2400 feet. Cushioned toboggans eleven feet long, having three steel runners are used. A single slide is capable of sliding 150 to 175 passengers an hour, loading four or five passengers to a toboggan. Twenty to twenty-five toboggans are required for each slide depending upon the rapidity with which they are returned. A conveyor is used at Grayling for the return up the hill.

The Toboggan House or Take-Off Building

This is a structure of unique design having been planned with seven different floor levels for convenience in handling both to bo gans and passengers. Foundations for the building are now constructed and the building remnietion is scheduled for next completion is scheduled for next

summer. (Continued next week)

STATE OF MICHIGAN (Emil Krage Estate)

The Probate Court for the County of Crawford.

Annual Tax Sale

STATE OF MICHIGAN,)

County of Crawford

The Circuit Court for the County of Craw-ford, in Chancery.

In the matter of the petition of Vernon J. Brown, Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assess-ed thereon.

In the matter of the petition of Vernon J. Brown, Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereog.

On reading and filing the petition of the Auditor General of the State of Michigan, against each parcel of land therein specified, claimed to be due for taxes, interest and charges on each such parcel of land, and that such lands be sold for the amounts so claimed by the State of Michigan.

It is ordered that said petition will be brought on for hearing and decree at the April term of this Court, to be held at Grayling, in the County of Crawford, State of Michigan, on the 9th day of April A. D. 1940, at the opening of the Court on that day, and that all persons interested in such lands or any part thereof, desiring to contest the lien claimed thereon by the State of Michigan, for such taxes, interest and charges, or any part thereof, shall appear in said Court, and file with the clerk thereof their objections thereto on or before the first day of the term of this Court above mentioned, and that in default thereof the same will be taken as confessed and a decree will be taken as confessed and a decree will be taken and entered as prayed for in said petition. And it is further ordered that in pursuance of said decree the lands described in said petition for which a decree of sale shall be made, will be sold for the several taxes, interest and charges thereon as determined by such decree, on the first Tuesday in May thereafter, beginning at 10 o'clock a. m. on said day, or on the day or days subsequent thereto as may be necessary to complete the sale of said lands and of each and every parcel thereof, at the office of the County of Crawford, State of Michigan; and that the sale then and there made will be a public sale, and each parcel described in the decree shall be separately exposed for sale for the total taxes, interest and charges, and the sale shall be made to the person paying the full amount charged against such parcel, and

Witness the Hon. John C. Shaffer, Circuit Judge, and the seal of said Circuit Court of Crawford county this 21st day of February, A. D. 1940. John C. Shaffer, Circuit Judge. Countersigned, Axel M. Peterson, Clerk

State of Michigan

In The Circuit Court For The County Of Crawford, In Chancery.

In the matter of the petition of Vernon
J. Brown, Auditor General of the
State of Michigan, for and in behalf
of said state, for the sale of certain
lands for taxes assessed thereon.

To the Circuit Court for the County of Crawford, in Chancery: Vernon J. Brown Auditor General of the State of Michigan, respectfully shows unto

the Court:

the Court:

1. That he is the Auditor General of the State of Michigan and makes and files this petition under, by virtue of and pursuant to the provisions of Act No. 206 of the Public Acts of 1893, as amended, and Act No. 126 of the Public Acts of 1933, as amended;

2. That Schedule A annexed hereto is the tax record required by the act first above mentioned and contains the description of all lands in the aforesaid county upon which taxes, which were assessed for the years mentioned therein, have remained unpaid for more than one year after they were returned as delinquent, the description of all lands in said county heretofore bid off in the name of the State and thus held and upon which taxes which were assessed subupon which taxes which were assessed sub-sequent to the tax for which such lands were sold to the State have remained unpaid for more than one year after they were re-turned as delinquent, and the description of all lands in said county which are de-linquent for any installment of taxes under the provisions of the act last above men-tioned.

3. That extended separately in said schedule against each description of said lands therein contained are (a) the total amount of delinquent taxes upon said description for the non-payment of which the same may lawfully be sold at the next annual tax sale, (b) interest computed thereon as provided by law to the first day of May, next ensuing, (c) a collection fee of four per cent and (d) fifty cents for expenses, all in accordance with the provisions of the act first above mentioned:

cordance with the provisions of the act first above mentioned;
4. That all of the aforesaid taxes, interest and charges are valid, delinquent and unpaid, and have remained delinquent and unpaid for sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which they were assessed and are extended in said schedule at the next annual tax sale for the non-payment thereof, and that the said taxes, interest, collection fee and expenses so extended in said schedule against each parcel of land therein described constitute a valid lien upon each of the said several parcels of land described in said schedule as therein and against which

the said several parcels of land described in said schedule as therein and against which extended in favor of the people of the State of Michigan, the payment of which lien this court may enforce as a preferred or first claim upon such lands by the sale thereof. Wherefore your petitioner prays:

a. That within the time provided by law this court may determine and decree that the aforesaid taxes, interest, collection fee and charges are valid and constitute a valid lien upon each of the said several parcels of land described in said schedule as therein extended;

b. That within the time provided by law

b. That within the time provided by law this court make a final decree in favor of the State of Michigan against each parcel of said lands for the payment of the several amounts of taxes, interest, collection fee and expenses, as computed and extended in said schedule against the several parcels of land therein contained; c. That said decree provide that in default of the payment so ordered of the said several sums computed and extended against said lands in said schedule, the said several parcels of land, or such interest therein as may be necessary to satisfy the amount de-creed against the same, shall severally be sold as the law provides;

d. That your petitioner may have such other and further relief in the premises as to this court may seem just and equitable.

And your petitioner will ever pray, etc. Dated February 16, 1940.

VERNON J. BROWN, Auditor General of the State of Michigan, for and in behalt of said State.

TOWN 26 NORTH, RANGE 1 WEST

TOWN 26 NORTH, RANGE 1 WEST

NW 4 of SE 4 1 40 1937 185.75

That part of SW 4 of SE 4 on N side of Au
Sable River 1 .50 1937 3.28

So much of SW 4 of SE 4 as is bounded on
the W by the 4 line of SE 4 of SW 4, on
S by center line of Main Stream of Au
Sable river, and on the N by center line of
North Branch of Au Sable river, and by
center line of water channel connecting
said North Branch with said Main Stream,
above the regular mouth of said North above the regular mouth of said North Branch. The piece or parcel hereby conveyed is an irregularly shaped area approximately in center of W side of SW4 of SE14 of Section 1, lying between the Main Stream and the North Branch of Ausoble river, and out off, at the extremity AuSable river, and cut off at the extremity

THURSDAY, APRIL 4, 1940

WE HAVE the utmost faith in Senator Arthur Vandenberg and are confident that he would make a great president. And our confidence in Thomas Dewey for president is just as great. It seems to us tho that Dewey is a seems to us tho that Dewey is a little closer to the people than Vandenberg and is a man who can be approached by anyone who may have reason to talk with him. Vandenberg is of the haughty type and apparently has time only for chosen classes. However he knows what it is all about and has every qualification for president. However we doubt if he will ever be popular with for president. However we doubt if he will ever be popular with the masses. To the contrary, Dewey is a people's man and, if he ever becomes president, is sure to be walking on the sides of the streets with the masses. That he is able, nobody will deny, and with his other qualifications he should go far as an ideal patriotic American citizen and public official.

DEWEY-THE MAN

The repeated reference to Dewey as the "youthful" presidential candidate is extremely irking to many people throughout the country who firmly believe we need a "MAN" of his calibre in Washington to lead us out of the chaos of the last seven years of New Deal frustration.

Democracy is all about. That moment you become a class-conscious creature and the class idea is the most destructive idea to the outworking of Democracy that I know".—Charlotte Republican-Tribune.

CLOSED PARACHUTE JUMP-ER ON RIPLEY SHOW

New Deal frustration.
This idea of youth is palpably a political trick to discredit him. This idea of youth is palpably a political trick to discredit him. With some it is working, for, we are afraid, they are not thinking deeper than on the surface and therefore are only catching the names used in reference to him by his psuedo friends as well as avowed political foes.

At first we were skeptical only

by his psuedo friends as well as avowed political foes.

At first we were skeptical only about his greater ability. The fact he has done such a remark. You a new one." One man did able job in New York city against such overwhelming odds makes such overwhelming odds makes such overwhelming odds makes of him an outstanding national faces. How it feels to fall 2,000 character. Little, if anything, could possibly be added to that record of achievement. We wondered though what his stand would be on the many countless of face were he actually to become the President of the United States. Since then, during the last few months he has erased our doubts in those respects. Best of all it is admitted he does his own thinking and writes practically all his own speeches. Those he does not write entirely he reviews and revises, according to "Time Magazine." until they become his very own. Something we have not seen in a public personage in his position in many and many a long year.

You remember the old gag about the guarantee of the para-chute company. "If it fails to open, bring it back and we'll give joen, bring it back and we'll give open, bring it back and we'll give open. The feet in an unopened "chute" and cleating the feet in an unopened "chute" and coll gare in an unopened "state in an unopened "chute" and coll gare in an unopene

Now he is discussing the moral issues involved in the campaign, and it is here that we more than agree with him in his attitude and his stand. If ever the United States was seemingly totally devoid of true moral leadership in Washington, it is now. His state ment anent the decay of the moral standards of the present Washington crowd should win him more friends and votes than his stand on the farm question.

Listen to him. Read his speeches. Then determine whether or not you think him incapable. But don't just say he is too young. That is too flimsy an excuse on which to close the door of opportunity on America, who so badly needs the stalwart leader.

But don't just say he is too young. There also will be on display all types of farm machinery, and which to close the door of opportunity on America, who so badly needs the stalwart leadership now more than ever of just such a man as Thomas L. Dewey, 38 years old, brilliant, intrepid staged is planned this year.

leader who is offering himself as the man who'll really do the job as it should be done.—C. B. Keis-

JOIN UP

Quite often the taxpayers as-sociations become a bore to its members. This is readily under-standable for 95 times out of 100, standable for 95 times out of 100, the men elected leaders of the organization do not know exactly what they want to do. They are imbued with a feeling of the necessity of joining and working in just such an organization for they can see the terrific waste of tax monies all around them.

waste of tax monies all around them.

Our only advice is this—join your local taxpayers' association. Do not expect that it will burn up the world overnight. It won't. Organization, planning, cohesion, i.e., working together and forming a specific plan of procedure, takes time. Frustration will take place, that is certain. More often than not you'll have well established political groups to buck, or with whom it will be necessary to establish a working basis

sary to establish a working basis of mutual respect before actual results can be noted. Despite all this, however, it is every citizen's duty to be a mem-ber of his own local taxpayers' association and devote some of his time to helping solve, if possible, the many problems facing every community.

Solvid of Flint spent the week end visiting the latter's parents, Mr. and Mrs. Eggie Bugby.

DEMOCRACY IN CRISIS (By Henry Hitt Crane, pastor the Central M. E. Church,

Democracy will be developed if we trust it, believe in it, un-derstand it and practice it. All we need is to realize that the

we need is to realize that the only cure for bad Democracy is good Democracy.

"The thing that bothers me is the fact that we are developing all too insidiously this most terrible conviction that if you want rible conviction that II you want anything done you have to do it in terms of factional functioning. in terms of factional factorial for instance, the thought of 'I want to put something over' is

want to put something over' is most repugnant to me.
"Rember, when you begin to function as a Republican or a Democrat, or as a Catholic or as a Methodist, or anything else before you function as a human being, that moment you forget what Democracy is all about. That moment you become a class-conscious creature and the class idea is the most destructive idea idea is the most destructive idea

quent?

There have been some wild guesses on this, but statistics show that the hour between 5 and 6 P. M. is the danger hour for accidents. This is due to several things. In a congested or metropolitan area, people on their way home from work, take unnecessary chances in hurrying through heavy traffic. On long trips, the average person becomes tired at dusk and, therefore, coming darkness together with fatigue, are responsible for many accidents.

Be careful all of the time, but lot uv snow, purty heavy in some low places. Here th' wild critters are leavin' their tracks as they scamper from one bare spot they scamper from one bare spot in diet. Oldest Mortgage

The oldest existing mortgage rec ord is said to be one found in 1893 by an archeological expedition of the University of Pennsylvania. It is a clay tablet stating that in 430 B. C. an inhabitant of Nippur, Bab-ylon, borrowed 30 bushels of dates from a fellow townsman, and pledged his ancestral lands as security for their return. It is believed, lowever, that similar agreements were in common use as long ago as 2200 B. C.

MARL FOR SWEETEN-ING ACID LANDS

Greater use by Michigan farmers of the state's extensive marl deposits, for sweetening acid, sour soils is reflected in greater demand for permits for working deposits on state-owned land.

A dozen permits have been is-sued in Benzie county alone this spring and permits have been issued also in Montmorency and Crawford counties. Marl is a putty- or chalk-like

deposit precipated in freshwater ponds and lakes from waters that have washed the calcium carbonhave washed the calcium caroonate out of the soils of the surrounding drainage basin. It is fairly generally distributed throughout Michigan.

From some dry deposits, marl is loaded directly into wagons

and trucks with gasoline shovels.
Where the material is taken from a lake, it is scraped from the bot-tom with a drag line, and piled on shore.

Baseball Travelers

The Baseball magazine says that the initial trip of American baseball teams abroad was in 1874 when the Boston and Athletics of Philadelphia invaded England and Ireland. The tour was the idea of A. G. Spalding. young pitcher of the Boston Red Stockings, and it was he who made all the arrangements.

The Junior Ladies of the Michelson Memorial Church met at the church parlors Tuesday evening for their regular meeting. After the business meeting lunch was served by Mrs. Harley Russell, Mrs. Fred Lamm and Mrs. George Granger.

There are a lot of Grayling people who are driving to Traverse City this week to see "Gone with the Wind" that has a week's engagement at a theatre there. All report the production to be every bit as good at it has been advertised.

t Supervisor Geo. Horton of Frederic has broken the record by being elected to that office three years in succession, and having served five years in all. A good supervisor should be kept in office for his experience is valuable to his township.

Emil Niederer and Ernest Larson. Justice Petersen sentenced the defendant to pay a fine of \$25 and costs, amounting to about \$15.00, or 10 days in jail.

Perry gave notice of appeal to the Circuit court and his case will no doubt be heard next week.

A guy wire of the Michigan Public Service Co. fell across a high voltage line of the Municipal clectric lines one day last week, burning it in two. One business block on Michigan avenue was without service for a half hour because of the accident, which apparently was caused by careless workmen.

When you want the best in children's shoes, call for Buster Brown shoes, at Olsons.

Wm. H. Catlin, a railroad man-of Bay City, is a patient at Gray-ling Mercy hospital suffering from an accident that occurred near Wolverine one day last week. Mr. Catlin fell between two box cars the moving train running over one of his hands cutting off his fingers. He also received minor bruises, however, he is getting along fairly well at this writing.

Many local folks have wondered the distribution and George looks as the had spent a lot of time on the golf links as he has a peach of a coat of tan. Truman LaVack is carrying his Wolverine one day last week. Mr. Catlin fell between two box cars

Not until the year 2,380 will there be another such early Easter, a Michigan editor has disthere be another such early Easter, a Michigan editor has discovered. Easter came the earliest this year of any time since last this year of any time since ownes the first Sunday after the first full moon following March 20. So March 20 is the earliest the possibly could be. However, full moons have a schedule all their own.

Mrs. Stanley Lazarowicz was

Sunday afternoon Dr. and Mrs. C. R. Keyport and daughter Miss: Jayne and Mr. and Mrs. Harold Mac. Neven breezed into town, and Seven weeks stay in Florida, touring here and there. They saw a lot of the Tigers while at Lakeland, and the Doctor spent their own.

Mrs. Stanley Lazarowicz was

Mrs. Stanley Lazarowicz was hostess to several ladies at her home Friday afternoon at a shower in honor of her sister, Mrs. Ernest Winston of Maple Forest. Bunco was the order of entertainment during the afternoon with honor scores being presented to Mrs. Winston. Refereshments were served after bunco. Mrs. Winston received many lovely gifts.

they spent at Miami Beach.

The MacNevens are looking fine after a six weeks vacation in the south. Their headquarters was at Lakeland, and they enjoyed several side trips to places of interest. Of course they saw a lot of "Birdie" Tebbetts at Lakeland.

Monday morning Mr. and Mrs. Holger Schmidt and son DeVere

Neison and Mrs. Ed Malonen, and low to Mrs. N. VanNatter and Albert Charron.

The special election to vote on a franchise for electric light and power by Grayling township will be held on April 16th instead of April 12th as was printed in this paper last week. We regret having made a mistake in the date and trust that every voter will be informed on the right date in due time. The election will be on Tuesday, April 16th. The special election on the same question in Lovells township will be held April 12th.

Mr. William Ingleson of Roscommon was the Kiwanis speaker Wednesday. His story about his trip to England when he and a group of other boy scouts, attended a world Boy Scout jamboree, was very interesting. About 50 nations were represented; America sent about 1,000 boys. Mr. Ingleson came to Roscommon from Chisars and the serves by the officers whose duty in the content of the protection in the protection in the serves by the officers whose duty in the content of the protection in the public streets not to permit it to how all night to the discomfort of neighbors. Why can't Grayling have the protection it destreased and then to keep them from overrunning the neighbors' yards?

In the case of David O. Perry, charged with reckless driving, a jury found him guilty in Justice Petersen's court Wednesday afternoon.

This arose over an incident when his car was struck by one driven by Joe Kesseler, March 23rd. Perry plead not guilty, when arraigned March 25th, and demanded a jury triel. This was held yesterday.

Kesseler was the people's witness and claimed that he was driving north on Chestnut street and when he saw Perry's car coming down Lake street from coming down Lake street from the west, he applied his brakes but because of the ice his car continued straight ahead and struck the Perry car. The prosecution claimed that there was clear vision from both streets and that Perry, coming from the left, should have waited while the Kesseler car got across the intersection. This point was disputed by the defendant, who acted as his own council.

The jury found Perry guilty as charged. Those on the jury were Frank Bennett, F. J. Mills, Arnold Burrows, Alfred Hanson, Emil Niederer and Ernest Larson.

Back From Their Winter Vacations

More of Gravling's southern tourist crowd returned home over the week end, and it seems good to have them back. Some were gone for several weeks whi others had but short vacations.

Mr. and Mrs. George Olson blew into Grayling Thursday after eight weeks spent in Flori-da's sunshine. They spent most of the time in Miami and at Miami Beach except for the last ten days when they joined the

Many local folks have wondered if their telephones are listed so as to come in on the Horace Heidt Pot of Gold program that comes over the air each Tuesday night at 8:30 o'clock on a national hookup. Mrs. Stanley Flower interested in knowing this, wrote to New York and received a letter Wednesday morning that all telephones come under this listing.

Mrs. Louis Kesseler, Mrs. Thomas Cassidy and Mrs. Jerome Kesseler arrived in town early Sunday morning Mrs. Kesseler had been in Florida since the holidays and had enjoyed a pleasant winter the guest of her brother W. A. Cassidy and wife of Midland. The remainder of the party left Grayling on March 18 to accompany Mrs. Kesseler home, and had a very enjoyable trip.

Sunday afternoon Dr. and Mrs.

kee they visited their children there before coming home. Mrs. Schmidt says they had a very enjoyable sojourn.

Mr. and Mrs. Holger D. Hanson and Mr. and Mrs. Carl Sorenson, who have been spending the winter in Houston, Texas, are on their way home and are expected to arrive any day now. We hear their way nome and are expected to arrive any day now. We hear that "Dad" became a golf enthusiast while in Texas, so he probably will be seen a lot this summer on the local course. His playing partner in Texas we learn was Billy Raae, who as you know is a golfer of no little know is a golfer of no little

We hear Mr. and Mrs. Chris Hoesli and Mr. and Mrs. Nelson Corwin are on their way home and probably will arrive the last of this week. They have been gone for most of the winter. As for Mr. and Mrs. Herbert Walthers we have not heard just when they will be returning from the west, where they went vacationing.

Not So Bad

The Melbourne, Australia, government is convinced that traffic and driving instructions offered in a humorous vein are more effective than the usual type. With every driving license now granted is provided a book entitled "Many Happy Returns," containing instructions the following: "It isn't your fault if all the other road users are completely daft, but it is your fault if you aren't prepared for them to be so."

Grayling Mercantile Co.

Womans Club

Venezuela, Mrs. Frank Barnett on the "Life of Simon Bolivar", Mrs. Stanley Stealy on the "Indians of Honduras." All three talks were very much enjoyed by those pres-

The Womans Club met at the home of Miss Margrethe Bauman Tuesday, April 9, instead of Mon-Monday evening. Mrs. Fred Welsh day, April 8, at the home of Mrs. gave a very interesting talk on Frank Bond.

\$100 for YOU

10 awards of \$100 each will be given away next week in our Michigan Branch

tor a . . . NICKNAME

To Buyers of Used Cars, Week of April 5th to 11th.

Buy that Used Car of Us Now

Many fine cars to choose from—1935, 1936, 1937, 1938 Fords, Chevrolets, Plymouths, Dodges. Give it a nickname which we will send in to our Ford Dealers Advertising Ass'n, and you may win one of these ten prizes. No essays, no puzzles, no strings. See us for further particulars.

Minutes of last meeting read

Moved by Jenson supported by

Grayling, Mich.

March 4, 1940

To the President and Members of the Common Council,

As the Charter of Grayling prohibits city employees from being members of the Common Council, I tender you my resignation to take effect March 5th,

I am pleased that I have been

Albert L. Roberts.

able to serve the community in the capacity of Councilman.

Very truly yours,

City of Grayling.

Gentlemen:

Non-partisan News Letter Michigan Press Association

By GENE ALLEMAN

Lansing-"The Republican party must enlist the interest and support of young voters if it is to win the next election."

James Thomson, chairman of the Republican State Central committee, was referring prim-arily to the national ticket. But the same philosophy, he said, would apply to Michigan in 1940.

A hard-headed, practical farmer who was weaned in politics on upstate rural campaigns, Thomson has no apprehension about the outcome of the 1940 campaign in this state. He feels that voters are growing more disillusioned about the national administration, as evidenced by the present level of unemployment at between ten and twelve million workers. But he has a realistic viewpoint on the 1940 national campaign; it's not going to be a walkaway for the Republicans no matter whom they nominate for president at Philadelphia next June. Michigan faces a strenuous

Hence, the importance of the young voters.

when we chatted with him at Lansing. Thomson explained apologetically that he had been up half the night taking care of a sick cow at his farm near Jackson. "I had a chance to sell her last spring," he said, "for around \$315. Last night we lost her, so I'm not feeling any too happy about it."

Balance of Power

"Yes, I believe that every citizen should take a personal interest in politics—not only on the primary or election day, but the very next day and every day in the year. This notion that politics is something tainted and besmirching—a thing to be ashumed of and apologized for—such an attitude can never encourage good and honest government. The next day after an election should find the voter just as interested in politics as he was as interested in politics as he was the day before.

"In my experience, I have found that upstate state politics are cleaner as a rule than every-day business. Of course, I can't speak for Wayne county as I have lived upstate all my life.

"Young voters under the age are beginning to req of 40 years hold the balance of employee must be power if they would only use it. citizen."

It was the young voter in his twenties or thirties who brought Thomson's Formula about the New Deal. Tests show that the average person of 40 years or more was about equally about the New Deal. Tests show the 1940 campaign formula, as that the average person of 40 indicated by the Republican state chairman, include the following divided between the two parties, and, if anything, he was inclined to be conservative rather than liberal.

The 1940 campaign formula, as that the Republican state chairman, include the following points (of course there are others):

Interest more young voters in the Republican party and its the Republican party and its property and its pro

"Remember, the Republicans principles.
have not won a national election for nearly 12 years. The young roll as rapidly as possible, posvoter, 21 years old, has never sibly lowering the age limit when known economic normalcy in this unemployment is widespread and country. Since he became of by having the local rolls certified legal age, he has always seen or heard of relief rolls, work project signs, and other indications from employment rolls; their of unemployment. To him this economic subnormal condition has been normal.

Moved by Jenson supported by Burke that a building and moving permit be issued to Louie Shorts to move and repair provided that said repairs are made within six months.

Yea: Roberts, Burke, Sales, Jenson, Milnes.

Moved by Roberts, supported by Burke that the offer of Michigan Public Service Company for cancellation of the street lighting contract and disposal plant contract for \$175.00 be accepted and that the same be paid upon the removal of the street lighting system and line to the disposal plant and the surrender of the s cancellation of the street lighting contract and disposal plant contract for \$175.00 be accepted and that the same be paid upon the removal of the street lighting system and line to the disposal plant and the surrender of the contracts.

Yea: Roberts, Burke, Sales, Jenson, Milnes.

Yea: Grayling Mich.

Old Age Pensions

The Republican state chairman feels that "America's biggest calamity" is our young people to-day who are unable to find work. It is this class of citizens from whom prisons, hospitals and asylums draw most of their inmates, and Mr. Thomson believes that idleness has been an important contributing cause.

But what can be done to help youth economically?
"I was just over to the governor's office this afternoon disc-

I wish to thank the people of Grayling for having confidence in me to have me on the Council for eighteen years. I also wish to thank the City Manager and Council for having confidence in me to give me the job of superintendent of the new Grayling Municipal Light Plant. I will try to give them the service they they the substitute of the conomically?

"I was just over to the governor's office this afternoon discussing this very problem," said Thomson.

"The span of life has increased in recent decades. We have more old people today, fewer young people. Life insurance statistics tell us this. Undoubtedly a help-fixed problem of the conomically? "The span of life has increased in recent decades. We have more old people today, fewer young people. Life insurance statistics tell us this. Undoubtedly a helpful solution would be to put more persons on old age rensions and

the solution would be to pur more persons on old age pensions, and this our state administration is trying to do in 1940.

"An ideal way to handle old age pensions would be to lower the age limit when business was had and tobs were scarce; raise

Albert L. Roberts.

Motion made and duly supported that the resignation of Albert Roberts be accepted and the office declared vacant.

Moved and supported that meeting be adjourned. Motion carried.

George A. Granger,
City Clerk.

You drive the leader when you drive a Chevrolet for '40-the leader in pep, power and pick-up-and the leader in style, stamina and sales!

It holds first place in acceleration-first place in hill-climbing-first place in all-round performance with all-round economy-among all cars in its price

That's why Chevrolet for '40 is first in sales . . . why more people buy Chevrolets than buy any other make of car . . . and why your Chevrolet dealer strongly recommends that you eye it-try it-buy it-today!

Prices subject to change without notice. Eye It .. Truy It ..
